Messe Frankfurt Group

The whole spectrum of electric automation technology

Welcome to SPS IPC Drives 2015

See – Experience – Consult – Compare – Evaluate

Visit Europe's leading trade fair for **electric automation technology**. With **more than 1,600 exhibitors** you will gain a unique overview of electric automation products from components to complete systems and integrated automation solutions.

Find out which products and innovations the electric automation industry has to offer. Talk to professionals at the exhibition stands in order to track down the best solution for your automation tasks. Use the exhibition as the ideal platform for getting the best tailored advice and planning your investment decisions optimally. Be there!

Exhibition topics

- Control technology
- IPCs
- Electric drives systems and components
- Human-machine-interface devices
- Industrial communication
- Industrial software
- Interface technology
- Mechanical infrastructure
- Sensor technology

Reasons for your exhibition visit

Ideal opportunities for comparison

Companies from Germany and abroad, from key players to start-ups, will be participating in SPS IPC Drives 2015. Gain a complete market overview in one place. Compare and evaluate the products and solutions of the different exhibitors purposefully and efficiently.

High innovation density

SPS IPC Drives as the leading trade fair for electric automation technology presents all the latest innovations of the sector. Many of the exhibitors plan their product development cycle in line with the timing of the exhibition and use the event to show off their newest products and trends.

Chance for networking

SPS IPC Drives is **the exhibition** for electric automation. The whole industry will meet in Nuremberg during the three exhibition days. Do not miss the opportunity to get in touch with the leading providers in this sector. Gain complete information, impulses and inspiration. Be a part of SPS IPC Drives 2015 and establish valuable contacts.

Products and solutions, innovations and trends at your exhibition!

»I travelled from Australia for my first visit to this exhibition and would certainly recommend to anyone involved in automation to visit SPS IPC Drives.«

Jim Callan,
Technical Director, Autech Control Group
Visitor of SPS IPC Drives 2014

Extensive fringe program

Exhibition forum

ZVEI exhibition forum, hall 2, booth 2-628

VDMA exhibition forum, hall 3, booth 3-668

Forum »Automation meets IT«, hall 3A, booth 3A-530

Find out how the industry is currently driven at interesting and exciting panel discussions on up-to-date automation issues directed by publishing houses and associations at the forums. Experience product presentations of exhibitors and inform yourself about the most recent trends in a fast and effective way.

ZVEI: The German Electrical and Electronic Manufacturers' Association

VDMA: German Engineering Federation

Find more details about the forums at sps-exhibition.com/forum

Please be aware that the forum language is mainly German.

wireless in automation

hall 10.0, booth 10.0-322/422/522

Learn more about the latest wireless technologies and their application in electric automation at the »wireless in automation« joint stand.

Machine Vision Pavilion by VDMA

hall 4A, booth 4A-351

The sectors of industrial automation and machine vision are converging more and more. Inform yourself about the **whole spectrum of machine vision** and its solutions for electric automation at the VDMA machine vision joint stand.

»Best Automation show
across the world.«

Prasad Khadilkar,
Director, Maestrotek Innovations Pvt. Ltd.
Visitor of SPS IPC Drives 2014

So many visitors
can't be wrong!

Industrie 4.0

Do not miss
these highlights!

Industrie 4.0 changes the world of industrial production. The intelligent networking of machines, systems and products along the value chain creates new potentials. Find extensive information about the topic Industrie 4.0 at SPS IPC Drives 2015. Products, solutions, innovations and trends which act as a trailblazer for Industrie 4.0 will be presented here.

In **hall 3A**, you will find **special on-topic exhibition areas, joint stands** as well as interesting **presentations** at the exhibition forum »Automation meets IT«. Let yourself be inspired!

DFKI-SmartFactory^{KL}

hall 3A, booth 3A-440

How will shorter production cycles and the increasing individualization of products be handled due to the growing cost pressure?

SmartFactory^{KL} delivers answers to the challenges of tomorrow. **The cross-manufacturer Industrie 4.0 plant** which was realized by *SmartFactory^{KL}* together with renowned industrial companies presents a highly flexible automated production with standardized interfaces and modern information technology.

Joint stand and exhibition forum »Automation meets IT«

hall 3A, booth 3A-630/3A-530

Exhibitors give visionary impulses and present **IT-based solutions in the field of automation technology** on the way to the digital production of the future as well as **database business models**. Interesting **lectures and podia** dealing with the topic Industrie 4.0 will run concurrently.

Joint stand »MES goes Automation«

hall 3A, booth 3A-740

MES (Manufacturing Execution Systems) are a central element of Industrie 4.0. They connect the **automation level** with the **organizational level**. With the use of MES, order processing and production processes are optimized. Inform yourself at the MES joint stand »MES goes Automation« of VDE publishing house.

Getting to SPS IPC Drives 2015

From the motorway junction »Nuremberg« follow the signs to the exhibition center or program your navigation system: **Destination: 90471 Nuremberg, Karl-Schoenleben-Strasse.** A free shuttle service will take you from the parking lots of the exhibition center to the entrances.

If you are using public transport to get to the exhibition, park your car in the **park & ride car parks.**

Journey at special prices

You can reach Nuremberg's main train station conveniently from every German city. There are also frequent train connections from major European cities like Paris, Brussels, Zurich, Vienna, Amsterdam or Prague.

From the main station, the underground lines U1 or U11 will get you to the exhibition center in just 8 minutes.

Book **favorable direct flights** to Nuremberg from various European metropolitan areas. Benefit from the special conditions of our Airline Partner Lufthansa. From the airport, the underground (line U2, changing at the main station on to U1 or U11) takes just 20 minutes to get to the exhibition center.
